

No.1530

Racing Jack

Lifts a ton and weighs only 42 lbs!

- Just six pumps gets you to maximum height of over 17 inches.
- Meets ANSI PALD, Part 10, for safety and quality.
- Low profile - 3 1/2 inches - makes it perfect for ground hugging, high performance cars.
- Weighs just 42 pounds and incorporates a side mounted handle for quick and easy carrying.
- Aircraft grade billet aluminum provides strength with maximum weight savings.
- One-piece, 43" long handle for strength when pumping.
- Handle stop bracket and assembly tool are included.
