

# OTC *Stinger* Phototach

- Infrared technology makes phototach accurate, convenient, and easy to use.
- Infrared beam not affected by ambient light.
- Non-contact design results in no torque loss for true precision.

The phototach is equipped with a laser pointer for accurate targeting. Reflective tape placed on a revolving object can be measured at distances from 2" to 12". It features a wide measuring range and high resolution, 2.5 to 99,999 RPM with a large 5-digit display, autoranging, min/max memory storage, and low battery indicator.

The phototach is the ideal tool for applications where electronic RPM pickup is not available.

- Gears, motors, engines, fans
- Compressors, generators
- Pulleys, grinding wheels
- Drills, saws, hones
