

4480

The new 4480 Basic Fuel Pressure Test Kit, from Stinger by OTC, performs running, residual, rail, and flow-rate fuel pressure tests.

The kit includes a professional, dual-scale pressure gauge (0-100 PSI and 0-700 kPa) with a relief valve, fuel discharge hose, and protective rubber boot.

The 4480 kit also includes adapters, hoses, and fittings to test domestic fuel injection systems, two popular adapters for import vehicles, plus the GMTBI adapter.

Whether you're a new technician—looking to offer basic fuel pressure service—or a full service shop—looking for a basic tool to complement your professional grade, fuel pressure service kit—the 4480 kit from Stinger by OTC, offers a great, value-based solution.
