

# Power Train Lifts

## 2,500 lb. Capacity Power Train Lift

This lift will handle engine and transmission assemblies, gas tanks, drive axle assemblies, engine / transaxle assemblies, electric bus batteries, and more.

- Scissors-type design allows access to all four sides of a component.
- Powered by a quiet, 110V electric / hydraulic pump.
- Smooth, steady lifting and lowering motion controlled by hand-held remote.
- Two patent pending independent adjusting screws tilt the table  $\pm 15^\circ$  side-to-side, or fore-and-aft, and ensure maximum stability of the table in any position.
- Larger casters accommodate heavy loads.
- A 30 ft. long retractable extension cord reel is mounted to the frame.

**No. 1595** – 2,500 lb. capacity power train lift.

### SPECIFICATIONS

Rated Load	Power	Min. Height	Max. Height	Footprint	Table Dimension	Handheld Control	Casters	Table Tilt
2500 lbs.	110 VAC	29"	80"	31" Wide 50" Long	20" Wide 32" Long	2 Button 10' Cord	8" Swivel	$\pm 15^\circ$
