

Diagnostic Hardware

Advanced Diagnostic Hardware Revolutionizing the Heavy Duty Industry

- The EZ Tap Diagnostic kit permits a Heavy-duty facility to use their OEM software for direct diagnostic mode operation.
- Advanced Airbridge® 2 Technology.
- Reduced latency for super fast vehicle connections.
- Faster than traditional wireless for most common diagnostic operations.
- Reduced interference and less vehicle connection drops.
- Range improvement over traditional wireless technology.

OTC Ez-TAP (Diagnostic Hardware)

Ez-Tap truck access point hardware supports diagnostic modes of operation for J1939, J1708 and CAN protocols using a shops OEM software. This fully RP-1210a compliant access point communicates with the vehicle and transfers vehicle information to your PC. A 9-pin connector is built into the device, eliminating the need for a cable. Connection to the truck is accomplished in only a few seconds.

- **Direct Diagnostics Mode** – for use with OEM diagnostic software.
- **Fault Monitoring*** – Selective Fault Reporting.
- **Triggers*** – Report deviation and duration for any parameter or event.
- **Parameter Monitoring*** – Reports latest data from vehicle network.
- **File Storage**** – Enough onboard memory to store maintenance notes for the lifetime of the vehicle.

* Will require additional Ez-TRAC software 3085-03.

** Will require additional Ez-File software 3085-01.
