1 ANDROID MOBILE OPERATING SYSTEM AT LIGHTNING SPEED

The Encore doesn't stray from its roots as an OTC diagnostics tool. OTC took the strengths of our diagnostics programs and merged them with the Android system to provide not only a tool—but a tablet—that understands the technician's mobile life.

"The capability and pairings for Bluetooth and Android are near endless. Encore goes beyond being a scan tool, to being an everyday tablet device for technicians."

With Google Play™, Encore can be the diagnostics solution at work, and allow you to download apps, music and more for a personalized experience.

7-inch capacitive touch screen (like your smartphone).

15 Boot up and get ready to rock in less than 15 seconds.

Dive right in with a familiar Android operating system.

Built-in WiFi and Bluetooth allows a technician to scan a vehicle while browsing popular online forums to research trouble codes, easily accessible via OTC's Fast Touch home page.

30 YEARS OF UNMATCHED OE COVERAGE

Alert technicians to on-tool or web-based repair information including Identifix® Direct-Hit™

Full scan functionality, including OEM Domestic, Asian and European, bi-directional controls and enhanced data

Perform a Google search right within a diagnostic session

AUTODETECT

NEW

1 FULLY INTEGRATED TOOL

BEAT THE FLAT RATE. INCREASE PRODUCTIVITY AND PROFIT.

NO OTHER SCAN TOOL COMPARES

SCAN

IDENTIFY

FIX

1 TOUCH AUTOID™

Automatically detects CAN vehicles 2005 or newer to quickly set up year, make, model and engine — all in one tap.

1 TOUCH DTCs

Tap to get codes with access to millions of confirmed experience-based fixes.

ONBOARD BATTERY

Technicians asked. OTC listened.
Avoid reentering the vehicle ID and losing data when you cycle the key.

EMBEDDED TRAINING VIDEOS

More than 70 videos show how to perform test procedures or functions in one minute or less.

FAST TOUCH HOME PAGE

Custom browser home page with access to popular technician forums right from Encore.

30 MILLION EXPERIENCE-BASED REPAIR SOLUTIONS

No other tool has embedded Identifix® assets available during every type of repair, including Code-Assist™, Symptom-Assist™ and Repair-Trac™.

COVERAGE ENHANCEMENTS

In the last three years, OTC has added improvements to its 30 years of OEM level coverage with critical emphasis on most common vehicles seen by technicians every day (out-of-warranty vehicle years 1996-2008 for all OEMs).
